

23rd March 2020

Dear Parents/Carers

Updated Information

A Big 'thank you' for the many messages of thanks and best wishes to me and my staff team here at both Warren Wood and Aegir. These are truly awful times and I want you to know that I and my brilliant staff team will try to support you wherever we can. We will be in touch with you in the coming weeks and will maintain contact the best we can in these difficult times.

The best advice at this moment in time is to make sure you wash your hands with hot soapy water – get a lather on. Clean work benches and kitchen benches the best you can. Please wash the hands of your children and encourage the older ones to wash their hands properly regularly and when they have been to the toilet.

It is my strongest possible advice to you all to keep your children safe at home; for them to stay at home and restrict their movement. Obviously short walks using social distancing rules will help, as will times in the garden if you have one.

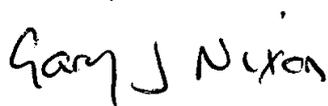

We are working as fast as we can to try to sort out the free school meal cards for you. This is proving to be a challenge at the moment so please bear with us.

A small number of our parents are official key workers. We have identified you and as such our team will be in contact with you on Wednesday. We will speak with you about your circumstances and your shift patterns. We will try to help where and when we can.

Please email any general enquiries to enquiries@msat.education

Kind regards and my best wishes to you all and our pupils at Warren Wood and students at Aegir.

Yours sincerely

Gary Nixon
Executive Principal
